1. IN-COUNTRY VALUE RETENTION & WORKSHOP UTILIZATION

- **Indigenous First Preference:** First consideration is unconditionally accorded to qualified Nigerian engineers, instrumentation technicians, and accredited Port Harcourt workshops (including PE Energy, Chilato-JUL, and Vintex Technology) for all pre-commissioning calibration, API 527/598 PSV testing, Local Control Panel (LCP) assembly, structural steel skid fabrication, and field installation scopes.
- **1% NCDF Remittance Compliance:** MISL enforces strict accounting, deduction, and timely remittance of the mandatory **1% Nigerian Content Development Fund (NCDF)** levy on all applicable upstream contracts in compliance with NCDMB directives.

2. TECHNOLOGY TRANSFER & HUMAN CAPITAL DEVELOPMENT (HCD)

- **Mandatory OEM Training Clauses:** In every agency or project authorization negotiation with foreign OEMs (Borsig ZM, Fluenta, Strohm, Mokveld, Rotork Bifold, Firetrace, Hi-Force), MISL requires structured training slots—combining OEM factory certification in Germany, the UK, the Netherlands, or the USA with hands-on mentoring in Port Harcourt—for Nigerian engineers and technicians.
- **NOGICJQS & Tender Compliance Filings:** MISL maintains a continuously updated Nigerian Oil and Gas Industry Content Joint Qualification System (NOGICJQS) portal profile, Equipment Ownership and Port Harcourt Workshop MOU registry, and tailored Nigerian Content Plans (NCP) for every tender submission.
